BENJAMIN MORGIEWICZ |FULL-STACK SOFTWARE ENGINEER

Warwick, NY | 845-248-9919 | benmorgiewicz@gmail.com |LinkedIn| Github | Portfolio

SUMMARY:

I am a full-stack software engineer who loves to write and fix code to find a solution to any problem. I use my problem solving brain and hard work experience to make life easier and more fun with intelligent code.

SKILLS

- **Languages:**   JavaScript, Python, HTML, CSS, SQL
- **Frameworks:**   React, Node.js, Express, Bootstrap, Passport, Django
- **Databases:**   Mongoose, MongoDB, PSQL
- **Templates:**   EJS, Hbs
- **Tools:**   Git, GitHub, Heroku, Postman, Terminal
- **Design:**   Adobe Illustrator, Adobe Photoshop, Adobe Premier

Software Development Projects   March 2022 - PRESENT

Live link: Blackjack

Black Jack - BlackJack is a card game. The goal of blackjack is to get 21 but if you over 21 you lose, you can win by getting closer to 21 then the dealer.   March 2022 - March 2022
- Utilized Javascript for the logic behind the game and dom manipulation to have live feedback, made in 2 weeks.
- Created Black Jack with a desktop first approach and styled using Styled-Components and CSS3 with flexbox layouts.

Live Link: Star wars social

Star Wars Social - Where all star wars fans come to unite. All star wars fans big and small can come to Star Wars Social to talk about, like, review and make favorites of all movies, shows, games, and make a watch/play list for later.   April 2022 - PRESENT
- Made RESTful API fetch calls **to** an Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
- **Used** Mongoose to define 4 [Movies, Tv-shows, Games, Users], schemas for MongoDB collections.
- **Utilized** CSS for style and grid template for layout. Bootstrap for navbar.
- **Used** passport and express-session to temperaly keep users logged in until logout or tab close.

Live link: Jelly Jam

Jelly Jam - App that allows you to find music for free, using Spotify's music API   June 2022 - June 2022
- Leveraged React, Express, MongoDB, Node.js, and Spotify's API
- I Made the client-side and server-side of login/register pages, create playlists/library, carousels, with Spotify's API.

Live link: Tech Excess

Tech Excess - An e-commerce tech store made and reviewed by Benjamin Morgiewicz   July 2022 - July 2022
- Made with React, Django, PSQL, Python, and Paypal's API.
- Learned and used Django's User, Knox authentication token, and Paypal in three weeks

Professional Experience

Landscape Manager | LTP Landscaping | Warwick, NY   April 2016 - July 2022
- Mowed 24 lawns in one day with 3 employees, lawns ranged from 1-5 acres (43,560-217,800 square feet)
- Led a team of 3, trained the team to use required tools, and worked efficiently to increase company revenue by 50%
- Helping all 60 customers through their complaints/requests and fixing them, demonstrating attention to detail

EDUCATION

General Assembly | Remote   January 2022 - July 2022

Software Engineering Immersive

Full-stack software engineering immersive student in an intensive, 24-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.
